Quantity: _____

Product:

Ribs	Rubber	Brush
Brush/Rubber	Rubber/Ribs	Brush/Ribs
Scraper bar		

Colour Ribbs:

(97) light grey*	(45) red	(77) dark brown
(85) beige* (nur 10mm)	(57) dark blue	(98) black-brown
(29) natural	(35) brown	(33) black*

Colour Brush:

(33) black	(35) brown	(38) grey
------------	------------	-----------

Frame profile height:

10 mm (* Ribbs only in black, beige, light grey)	17 mm
22 mm	27 mm

Profile thickness: Standard Solid 27 mm (heavy duty)

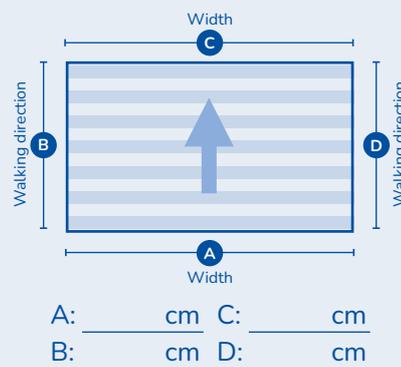

Frame required: yes no

Material (frame): Stainless Steel Aluminium

DURAWAY doormats are made in one piece where possible. Only mats that are wider than 300 cm or weigh more than 70 kg are split into two sections, to make them easier to handle and to take up for cleaning. We would like to remind you again of the **importance of specifying the walking direction correctly**. Only if the doormats are laid at right angles to the walking direction will it be possible to achieve optimum cleaning and eliminate the risk of slipping. Unfortunately it is not uncommon (even in large projects) to find doormats laid in the wrong direction. **If you have placed an order, we will send you a detailed sketch for you to approve.**

Measuring correctly:

In order to determine the exact dimensions, please measure all four sides, so that any asymmetry can be taken into account.

Given dimensions are for:

Frame size external

Frame size internal

(for a doormat in an existing frame)

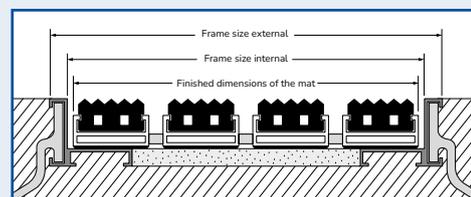

Finished dimensions of the mat

Please note:

The dimensions of the doormat must be smaller than those of the frame so that the mat can be lifted out easily for cleaning purposes. In this case, deduct 2.5 mm from each side of the mat, so that the mat is 5 mm shorter in both width and length (walking direction).

Special shapes / asymmetrical formats (additional charge)

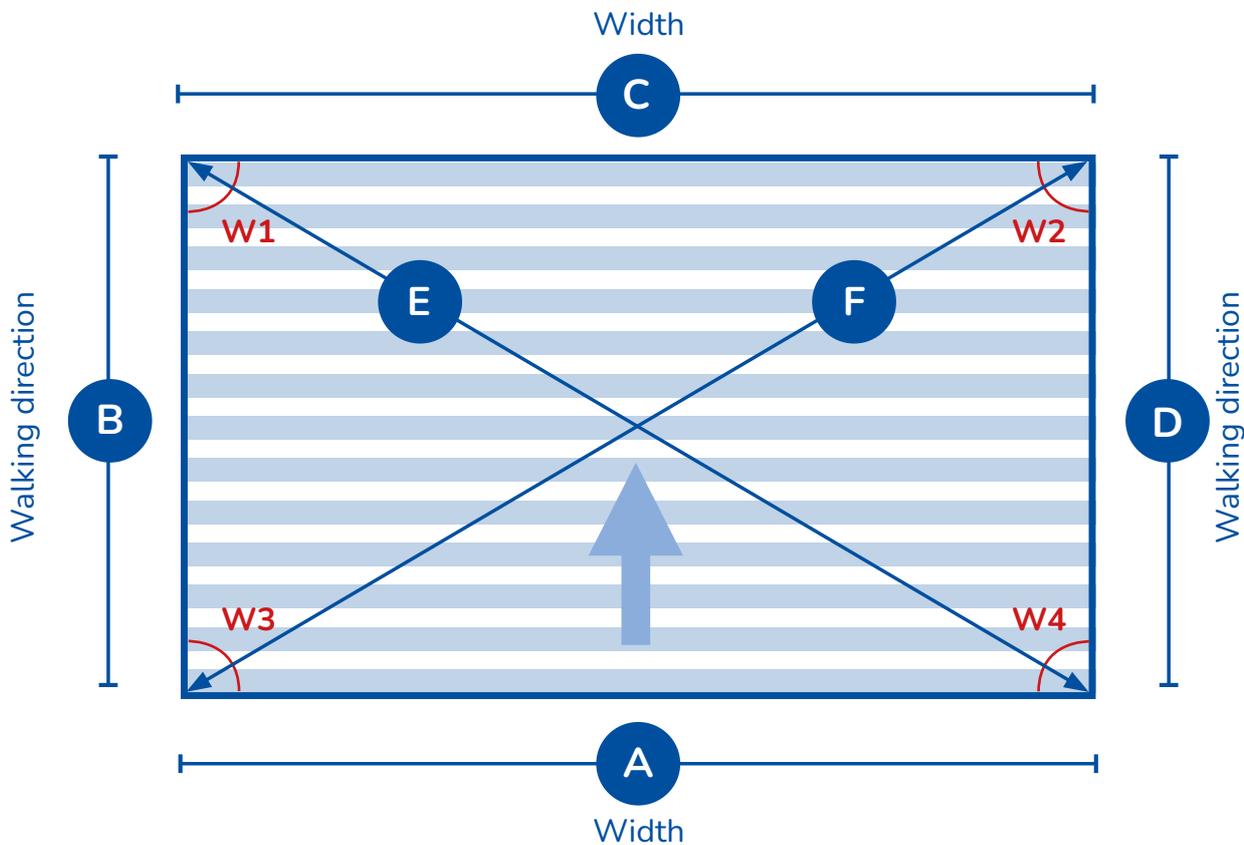

Please provide a sketch of the exact dimensions (page 2)!

Special shapes

Important: If the doormat is not right-angled (90°), please specify the angle dimensions W1 to W4.

A _____ cm

B _____ cm

C _____ cm

D _____ cm

E _____ cm

F _____ cm

W1 _____ °

W2 _____ °

W3 _____ °

W4 _____ °
